Efaz Ahmed

Prince's Trust

- **No organisation can work alone to support and drive change for young people.**
- **We need *inspirational and lived experienced role models* to work in partnership with us to listen to the voices of young people.**
- **We need to reach more community organisations to raise awareness of our offer and how we can better support communities.**
- **More young people should be accessing what we offer. How can we ensure we are reaching need.**
- **By working together we can achieve so much more.**
